GRADE 12

**MARKS: 100** 

| SYMBOL    | EXPLANATION   |
|-----------|---|
| М         | Method  |
| M/A       | Method with accuracy                                    |
| CA        | Consistent accuracy                                     |
| А         | Accuracy  |
| С         | Conversion  |
| D         | Definition  |
| S         | Simplification  |
| RT/RG /RD | Reading from a table/Reading from a graph /diagram      |
| F         | Choosing the correct formula                            |
| SF        | Correct substitution in a formula                       |
| 0         | Opinion/Example   |
| Р         | Penalty, e.g. for no units, incorrect rounding off etc. |
| R         | Rounding off  |
| J         | Justification/Reason                                    |
| NPR       | No penalty for rounding OR omitting units               |
| AO        | Answer only   |

This marking guideline consists of 5 pages

| Ques  | Solution   | Explanation    | Level |
|-------|--|----------------|-------|
| .1.1  | Vooma`s Petal 🗸  | 2A answer (2)  | 1     |
| .1.2  | October $\checkmark \checkmark$  | 2A answer (2)  | 1     |
| .1.3  | Total income = $R34 350 + R3 500 \checkmark$   | 1M adding      |       |
|       | = R37 850 ✓  | 1A answer (2)  | 1     |
| .1.4  | Total amount deducted = $R4 200 + R500 + R2 750 + R6 500 \checkmark$                             | 1M adding      |       |
|       | $=$ R13 950 $\checkmark$   | 1A answer (2)  | 1     |
| .1.5  | Peter's Net pay = $R37 850 - R13 950\checkmark$  | 1M subtraction |       |
|       | $= R23\ 900\checkmark$   | 1A answer (2)  | 1     |
| .1.6  | Reduction of provident fund = R13 950 $-$ R860 $\checkmark$                                      |                |       |
|       | $= R13\ 090$   |                | 1     |
|       | Peter's new Net pay = $R37 850 - R13 090$  | 1M subtraction |       |
|       | $=$ R24 760 $\checkmark$   | 1A answer      |       |
|       |  |                |       |
