SUBJECT VIRTUAL LESSONS TIMETABLE – MS TEAMS® (MATRIC SUPPORT PROGRAM)

Dear Districts Officials & Schools

The FET curriculum and support services are jointly collaborated and crafted the below timetable to support our Grade 12 candidates to participate virtual lessons in their educational journey. The curriculum support(e-learning) unit of education has organized virtual lessons for current NSC candidates.

The virtual lessons we are offering are specifically designed to address challenging subjects and topics that some candidates may find particularly demanding. By providing access to remote lessons, we aim to ensure that the candidates can receive additional support.

Key details about the virtual lessons are as follows:

Online Platform: To ensure easy access and participation, we will be using a secure and user-friendly online platform.

Schedule: Virtual lessons will be conducted as per their NSC timetable. This schedule will be shared with all students, parents, and teachers well in advance.

Attendance: We expect all eligible candidates to participate in these virtual lessons to maximize the benefits. Teachers and parents are encouraged to support and monitor candidates' participation.

Support Team: The Support Unit of Education has identified from each District e-learning officials and from Head Office.

From
CES: E-Learning & E-Governance

CC: Chief Director, Director
