## INSTRUCTIONS TO MARKERS

1. Candidates' responses should be assessed as objectively as possible.

### **Marking the Comprehension**

o Because the focus is on understanding, incorrect spelling and language errors in responses should not be penalised unless such errors change the meaning/understanding. (Errors must still be indicated.)

o If a learner uses words from a language other than the one being examined, disregard those words. However, if a word from another language is used in the text and required in an answer, this will be acceptable

o For **open ended questions**, no marks should be awarded for YES/NO or I AGREE/ I DISAGREE. The reason/substantiation/motivation is what should be considered.

o Do not credit True/False part of the answer. Credit only the motivation provided

o When one word answers are required and the learner gives a whole sentence, mark correct provided that the correct word is underlined/highlighted

o When two/three facts/points are required and a range is given, mark only the first two/three.

o For multiple-choice questions, accept BOTH the letter corresponding with the correct answer AND/OR the answer written out in full.
